

Time Guardian

HandPunch 1000 Package

***Capturing time with biometric efficiency is one thing.
Managing time more efficiently is another.***

Providing both in one affordable package is an Amano thing.

Our Time Guardian®/HandPunch® kit has everything you need to save money, reduce administrative time and improve your bottom line.

The HandPunch® 1000 verifies the employee's identity in less than one second. Buddy punching and time fraud are eliminated, thereby reducing payroll costs. Each terminal can store 50 or 100 identities and supports either serial and Ethernet communication.*

The Time Guardian software automatically collects, calculates and prepares employee time data for payroll. It's accurate and easy to install and use.
