G-2250

The JCM Model G-2250 continues the product tradition of pride, quality, and innovative features that retailers expect to find in the JCM family of electronic cash registers. The stream-lined cabinet design enables the unit to fit any type of retail environment.

KEYBOARD

The keyboard has been specifically engineered to increase throughput while reducing the chance of operator error. Keyboards can be easily customized to accommodate the unique requirements of today's Retailers.

DISPLAY

New and improved large easy to read 14mm operator and customer displays are standard. The customer display is built in the rear of the unit and can be extended to become a swivel display to facilitate customer viewing from any angle.

PRINTER

A heavy duty 44mm ten column Receipt and ten column Journal Drum Printer, with quick and easy validation and locking printer cover, provides product longevity, reliability, and added security.

CASH DRAWER

A heavy duty five-coin/five-bill slot cash drawer with lock and cash drawer compulsion is standard.
